DETOX TREATMENTS

Pressotherapy + InfraRed 30'-€60 | 60'-€120

This treatment offers immediate relief and comfort for heavy legs, water retention, cellulite and poor circulation. Our Pressotherapy machine also utilizes FAR infrared technology to enhance deep detoxification, speeding up your metabolism and helps with weight loss.

Aroma Body Sculpt 60'-€90

Detoxifying and toning body wrapping treatment, ideal treatment as part of a detox or slimming programme or for general skin cleansing and nourishing. This treatment has proved very efficient in degradation of cellulite, fat cells and works as a lymphatic drainage to improve the tone and elasticity of the skin.

Thermal Sauna Blanket 30'-€60

Burn up to 600 kcal in only 30min of resting. This ultimate slimming and detox treatment uses 'Far Infrared' heat to penetrate your body, making you sweat like crazy! You'll feel energised, refreshed and ready to take on the day after only 30 minutes of lying inside this blanket! Recover aches & pains, calm your mind and experience that post-sauna high.

MLD Manual Lymphatic Massage 30'-€50 | 60min-€100 | 75min-€130

Lymphatic Drainage Massage is a form of a gentle massage that encourages the drainage of lymph nodes and movement of lymph fluids around the body. This massage aims to improve the flow of lymph fluid which should reduce swelling (lymphoedema)

CELLULITE & FAT LOSS

Maderotherapy Massage 30'-€60 | 45'-€90 | 60'-€120

Maderotherapy is massage therapy with wooden instruments, originating from Colombia. This technique uses anatomically designed wooden tools to improve and contour the size and shape of the body to enable intense pressure on fibrous cellulite and the removal of fat deposits together with other toxins.

Ultrasound Cavitation + RF 1 area €99

Ultrasound Cavitation is highly effective in reducing fat in stubborn areas such as Hips, Thighs, Stomach, Lovehandles and Buttocks. It uses scientifically proven non-invasive technology to break down unwanted fat, whilst the Radio Frequency helps to tighten sagging and loose skin and promote collagen production and skin smoothness.

Vacuum Therapy + RF 1 area 30' - €80

This device combines radiofrequency and vacuum suction massage in order to target and combat severe cellulite. Vacuum massage drain the adipose tissue and move the fat towards the lymphatic system while the RF uses energy waves to heat the deep layer of your skin which results in collagen and elastin production and contract and tighten skin fibres.

Laser Lipolysis Treatment 1 area €80 | Double Chin €50

This revolutionary treatment uses low laser technology, known as Diode Laser, for targeted fat reduction and inch loss. Lipo Therapy works by stimulating fat cells to liquefy the fat contained within the cell. The fat is then absorbed by the lymphatic system and converted to energy. An important part of the treatment is to ensure that fat that has been treated does not store elsewhere on the body. To ensure this does not happen, you must complete some form of exercise for at least 30 minutes on the day that you have the treatment.

- NON-SURGICAL
- NON-INVASIVE &
- PAIN FREE!

SKIN TIGHTENING & MUSCLE BUILDING

RF - Radio Frequency 1 area 30' - €99

Radiofrequency (RF) is used to heat carefully selected levels of the skin. This results in new collagen formation, fat cell breakdown and skin remodeling. Collagen fibres contract and multiply which firms and improves sagging skin and smoothes away unsightly cellulite. Finally circulation is improved which improves redness and overall volume. One to three inches can be reduced after 3-6 treatments, with excellent long-term results.

EMS-Electro Muscle Stimulation 1 area 30' - €60

EMS uses a tiny electrical current to stimulate deep muscles that are hard to isolate with conventional training, which encourages a more sculpted look. It targets cellulite by stimulating blood flow, eliminates toxins and increases collagen production, leaving your skin supple and more youthful. EMS is more effective than gym workouts - one 30 minute EMS session is the equivalent of over 2 hours in the gym!
